Library Report.

About sixteen years ago the nucleus of the library was voted in the sum of twenty-five dollars and some thirty books were purchased. Since then the appropriations have been larger and for the past few years the amount has usually been one hundred dollars. We now have fourteen hundred books for circulation

There is no expense in maintenance except the services of librarian who receives an average of five cents an hour for actual time. However, this year there will be an expense of rent which we have asked for in the Town Warrant. During the summer months we charge non-residents for the use of books. Some books have been given to the library by Mr. J. F. Wellington which we hereby gratefully acknowledge.

Again, as in all of our previous reports, we insistently urge you—the owners—to draw the interest on this splendid investment which you have made. Some value it already as one illustration will exemplify. On one of the coldest Sundays this winter forty-seven books were taken out and more than one-half of them were from one to three miles outside of the village.

While the arrangement of opening the library Sunday mornings conveniences those attending church in exchanging books, it is also as pertinently convenient for those exchanging books to attend church.

And now to those who have not yet used the library let us suggest investigation. To those who are using it we only need to say that there are yet undiscovered treasures in some of the older books. But to one and all we earnestly say that from the best thoughts of others

there will be inspiration to a higher and a better development of ourselves. In this truer state let us forget the mean, sordid things of life and live to be only happy.

Report of Schools.

Experience is said to be a good teacher. The experience of your present school board is that there is something radically wrong with our present school system or its administration. What we want is the greatest good for our pupils which we can conscientiously give them without damage to others. The schools in the several districts in advancement compare favorably with other years' progress. We feel that much more could and should be done. Can we not take the matter in hand at our coming school meeting?
